Summary

B.Sc. in ICT graduate with a strong background in software engineering, modern web development, and data engineering pipelines. Proficient in architecting scalable ELT/ETL workflows, building full-stack applications with FastAPI/React, and database management across Linux environments. Combines solid analytical modeling with UI/UX and graphic design proficiency.

Education

University of Sri Jayewardenepura (Faculty of Applied Sciences)

B.Sc. IN INFORMATION COMMUNICATION TECHNOLOGY

Nugegoda, Sri Lanka

May. 2023 - Mar. 2026

Skills

Languages	Python, SQL, TypeScript, JavaScript, Java, C
Web Development	React, Next.js, FastAPI, Django, REST APIs(JSON/XML), Tailwind CSS
Data Engineering	PySpark, Apache Airflow, dbt, DuckDB, Pandas, SQLAlchemy, Streamlit, Power BI
Databases	PostgreSQL, MySQL
Cloud & DevOps	AWS, Docker, Linux, Git, GitHub Actions

Projects

E-Commerce Data Transformation Pipeline

PYTHON · DBT · DUCKDB · STREAMLIT · SQL · PLOTLY

Jul. 2026

- Architected a modular ELT analytics warehouse with staging, intermediate, and dimensional mart layers (star schema) using dbt and DuckDB.
- Implemented comprehensive data validation with **dbt_expectations** and reusable macros via **dbt_utils**, reducing pipeline execution time by 40%.
- Built an interactive Streamlit dashboard for real-time sales and customer behavior analytics backed by automated single-command transformations.

Automated End-to-End ETL Pipeline & Health Dashboard

[\[Github Link\]](#)

PYTHON · APACHE AIRFLOW · POSTGRESQL · DOCKER · STREAMLIT · SQLALCHEMY

Jul. 2026

- Engineered a containerized ETL pipeline using Docker and Airflow, automating daily tabular extraction from 50+ unstructured health PDF reports with 98% accuracy via **pdfplumber**.
- Designed dual-storage architecture with raw CSV archival and SQLAlchemy-backed PostgreSQL storage, reducing analytical query latency by 60%.
- Built real-time trend analytics dashboard with automated retry mechanisms and logging, maintaining 99.9% pipeline reliability.

Visit Panama Sri Lanka – Tourism Platform

REACT · TYPESCRIPT · FASTAPI · POSTGRESQL · TAILWIND CSS · SQLALCHEMY

Apr. 2026

- Architected a three-tier, API-driven full-stack booking marketplace supporting 200+ attractions and 30+ local tour operators.
- Engineered 12 secure REST API endpoints with JWT authentication, role-based access control (RBAC), and asynchronous ORM queries.

Achievements

2024 **Finalist**, HackX 9.0, University of Kelaniya (IMSSA)

Certificates

- 2026 **Associate Data Engineer in SQL**, DataCamp
- 2026 **AWS Academy Graduate Cloud Foundations - Training Badge**, AWS Academy
- 2026 **AWS Academy Graduate Data Engineering - Training Badge**, AWS Academy
- 2026 **AWS Academy Graduate Machine Learning - Training Badge**, AWS Academy
- 2024 **Postman API Student Expert**, Postman
- 2023 **JavaScript Algorithms and Data Structures**, freeCodeCamp

Extracurricular Activity

Computer Science Association (CSA) – USJ

SUB-EDITOR & GRAPHIC DESIGNER

2025 - 2026

- Designed event branding and promotional media; curated technical articles for departmental publications.

Career Skills Development Society (CSDS) – USJ

FACULTY COORDINATOR

2024 - 2025

- Coordinated career guidance sessions and led student outreach campaigns across the faculty.
