Professional Summary

Ambitious and analytically-driven ICT Undergraduate with a strong foundation in Mathematics and Computer Science, seeking an Internship. Equipped with a solid understanding of OOP, Data Structures and Algorithms (DSA), and clean Software Architectures. Hands-on experience building asynchronous, API-driven architectures, managing databases (SQL/NoSQL), and executing automated data pipelines. Eager to apply software quality assurance, automation principles, and Agile execution to deliver reliable, production-grade solutions within a fast-paced team.

Education

University of Sri Jayewardenepura

B.Sc. in Physical Science ICT (ICT GPA: 3.34)

Sri Lanka

2023 – 2026

- **Relevant Coursework:** Data Mining & Warehousing, Database Administration, Data Structures & Algorithms, Artificial Intelligence, Software Architecture, Applied Statistics.

Dharmadutha College

G.C.E. Advanced Level (Z-Score: 0.9413)

Badulla, Sri Lanka

2017 – 2019

- ICT - A, Physics - C, Mathematics - S, English - C

Am/ Panama Maha Vidyalaya

G.C.E. Ordinary Level

Panama, Sri Lanka

2006 – 2016

- Results: 5A's, 2B's, 2C's

Projects

Automated Dengue Surveillance Data Pipeline (On going)

July 2026

Python, Apache Airflow, PostgreSQL, Streamlit

- Architected an automated ETL pipeline that programmatically extracts official epidemiological data from the Ministry of Health Sri Lanka, normalizes messy historical distributions, and stores them in a relational database for tracking longitudinal outbreak trends.
- Engineered a real-time interactive Streamlit web dashboard powered by Apache Airflow workflow orchestration, providing public health insights and high-fidelity geospatial visualizations of current national dengue trends.

London Airbnb Market Analytics & Predictive Modeling

March 2026

Python, Scikit-Learn, Pandas

- To extract actionable insights from a dataset of over 28,000 listings, the project followed an end-to-end KDD pipeline. This involved executing a data acquisition and preprocessing workflow to handle anomalies, missing values, and feature isolation, followed by unsupervised clustering algorithms and association rule mining to map out distinct market segments.
- Ultimately, this removes the guesswork from property pricing by providing a reliable model that accurately explains nightly price fluctuations. By uncovering clear, real-world traveler trends, it gives hosts the exact insights they need to set competitive rates, target the right customer tiers, and maximize their overall rental revenue.

Visit Panama Sri Lanka

April 2026

React, TypeScript, FastAPI, PostgreSQL, Tailwind CSS

- The development began by architecting a three-tier, API-driven full-stack application from scratch. The technical core involved building a highly responsive user interface paired with a robust backend driven by an asynchronous object-relational mapping layer connected to a relational database management system.
- The platform is designed to directly support the local community by connecting travelers with regional hospitality businesses. It serves as a digital marketplace that allows tourists to explore and plan trips, while enabling local homestay and safari operators to showcase their services and reach a broader customer base.

Certifications

Data Visualization in Power BI: DataCamp (Jun 2026)
Introduction to Power BI: DataCamp (Jun 2026)
AWS Academy Graduate - Machine Learning Foundations - Training Badge: Amazon Web Services (AWS) (Jun 2026)
AWS Academy Graduate - Data Engineering - Training Badge: Amazon Web Services (AWS) (Jun 2026)
AWS Academy Graduate - Cloud Foundations - Training Badge: Amazon Web Services (AWS) (Jun 2026)
SQL (Basic): HackerRank (Dec 2025)
PyData Sri Lanka Post-Conference Workshop Series: PyData Sri Lanka (Jan 2025)
JavaScript Algorithms and Data Structures: FreeCodeCamp (Dec 2023)
Python Programming: University of Moratuwa (Apr 2023)
Python (Basic): HackerRank (Jan 2023)
Python Data Structures: SoloLearn (May 2022)
Python Intermediate: SoloLearn (May 2022)
Python for Beginners: University of Moratuwa (Apr 2022)
Web Design for Beginners: University of Moratuwa (Apr 2022)

Achievements

Finalist, HackX 9.0 – Industrial Management Science Students’ Association Sep 2024

- Co-founded Team CODE9 and secured a place among the Top 15 finalists out of 220+ competing teams island-wide, representing the University of Sri Jayewardenepura.
- Competed in the grand finale hosted at the Dialog Axiata PLC Head Office, organized by the Department of Industrial Management, University of Kelaniya.

Volunteering & Leadership

Computer Science Association (CSA) - USJ Sri Lanka
Sub-Editor & Graphic Designer 2025 – 2026

- Designed high-impact graphics, event flyers, and digital marketing materials for association events.
- Collaborated with editorial teams to maintain visual consistency across community publications and tech articles.

Career Skills Development Society (CSDS) - USJ Sri Lanka
Faculty Coordinator 2024 – 2025

- Served as Award Coordinator for the BESA FAS Award at JESA 2024, managing evaluation and candidate coordination.
- Acted as primary liaison between the Faculty of Applied Sciences and the society to mobilize career guidance programs.

Vidudaya Vidya Sahodarathwaya - USJ Sri Lanka
Active Member & Volunteer 2023 – 2026

- Contributed to the comprehensive library renovation and book donation drive for Walhena Polpitiya Vidyalaya under the 'Sahurda Yathra 15' initiative.
- Actively engaged in environmental sustainability initiatives, including community-led beach cleanups and ecological conservation projects.

Technical Skills

Languages: Python, JavaScript, TypeScript, Java, C, HTML5, CSS3
Frameworks & Libraries: Django, Flask, Next.js, React, Bootstrap, Tailwind CSS, FastAPI, Streamlit, Apache Airflow
Databases & ORMs: PostgreSQL, MySQL, MongoDB, SQLAlchemy
Data Formats & APIs: JSON, XML, REST APIs
Data Science & ML: NumPy, Pandas, Power BI, Matplotlib
Cloud Technologies: Amazon Web Services (AWS)
UI/UX & Design: Figma, Adobe Photoshop, Adobe Illustrator
Tools & CMS: Git, Ollama, GitHub, Linux, VS Code, WordPress, MS Office
